Available Phosphate (P_2O_5)..... 5.00%
Source of Nutrients: Hydrolyzed Fish

General Recommendations

SURE FISH is recommended as a supplement to a total fertilizer program. For best results, refer to soil and plant analysis to determine and correct crop nutrient deficiencies or imbalances.

Application Rate for Row Crops, Small Grains:

At Planting	Apply 1-10 gal. per acre.
Foliar	Apply 1-4 qt. per acre, per application. May apply every 14-28 days.

Application Rate for Vegetables, Soft Fruits, and Flowers:

At Planting	Apply 1-10 gal. per acre, or 3-30 oz. per 1,000 sq. ft.
Foliar	Apply 1-4 qt. per acre or 1-2 oz. per 1,000 sq. ft. at one or more applications.

Application Rate for Alfalfa & Haylage:

Apply 2-3 gal. per acre, prior to 1st cutting and after each cutting.

Consult product label for further blending, storage, and application instructions.
