GENERAL RECOMMENDATION

SURE CROP MICRO-PAK is designed for use in liquid fertilizers and suspensions as soil application for all crops requiring Zinc, Manganese, Copper, Iron, or Boron.

Optimum rate of application will vary depending on soil pH and organic matter content. For best results, follow soil and or plant analysis recommendations.

ROW OR BAND Apply 1-2 qt p/Acre of **SURE CROP MICRO-PAK** with sufficient water or fertilizer solution in broadcast dribble, or band application.

BROADCAST Incorporate 2 to 4 inches for best results. Apply 2-3 qt p/Acre **SURE CROP MICRO-PAK** just before planting and work into the top 3-5 inches of the soil.

FOLIAR Apply 1-2 pint p/Acre of **SURE CROP MICRO-PAK** with a minimum of 10 gallons of water.

Consult product label for further blending, storage, and application instructions.
