

Healthy Fields ~ Optimum Yields!

Sure Crop Power-Pak is a unique liquid nutrition that serves as an unique absorption activator and can be used in place of AMS

Power-Pak

Replacement for AMS

Defoamer, Drift Retardant and Anti-Evaporant

Weight Per Gallon : 9.60 lbs
Freezing Temperature: 14° F

877 US Hwy 36
Seneca, Kansas 66538
Ph. 785-336-2121

Division of Ag Connection Sales, Inc.

Power-Pak

-  Contains special high molecular weight polymers to enhance crop protection herbicide efficacy and spray deposition
-  Provides absorption activators to help release surface tension and enhances the ability of herbicides to move into plant leaves
-  Helps equalize pH of spray solutions to help increase the effectiveness of crop protection chemicals-reduces alkaline hydrolysis
-  In the event of rain, provides wash off protection
-  Reduces the leaching of crop protection chemicals
-  Contains integrated anti-foamers to minimize excess spray tank foam.
-  Handles easier than other forms of Ammonium Sulfate

GENERAL RECOMMENDATION

SURE CROP POWER-PAK with crop protection herbicides where Ammonium Sulfate is recommended. Mitigates drift and minimize leaf surface tension for immediate absorption.

APPLICATION Apply 1-2 qts p/Acre of **SURE CROP POWER-PAK** per 100 gallons of spray solution. Under extremely hard water conditions, additional **SURE CROP POWER-PAK** may be required.

DIRECTIONS Always use **SURE CROP POWER-PAK** in accordance with the instructions concerning additives found on the chemical label. Shake well or re-circulate before using if product has been stored below 32°F. When mixing, fill spray tank 1/3 to 2/3 full with clean water. Proceed with agitation, add **SURE CROP POWER-PAK** and then appropriate amount of crop protection chemical. Continue with adding the remainder of water and maintain agitation until spray blend has been applied to ensure uniform spray blend.

Consult product label for further blending, storage, and application instructions.
